Table 2. Projected sea-level rise contributions from each ice sheet and process

Values are the 5th, 50th, and 95th percentiles of the Monte Carlo distributions.

Year and warming	Percentile	Accumulation			Discharge			Runoff			Runoff − Accumulation		
		EAIS	WAIS	GrIS	EAIS	WAIS	GrIS	EAIS	WAIS	GrIS	EAIS	WAIS	GrIS
